**Smart Glasses
Information Leaflet**

Domani Astro: our new smart glasses range.

General Care Info

- Included in the box: Solari Astro frame, frame pouch, cleaning cloth, charging cord and instructions
- Battery life up to 8 hours (5 hours listening to music at 80% volume)
- Charges fully in two hours with seamless magnetic connection
- 1 year warranty period for manufacturing faults

Frame & Fitting Information

- The frame front is made from either quality acetate (heatable up to 60°C), or a titanium alloy for easy fitting.
- The arms are polycarbonate injection moulded, and shaped for comfort (NOTE: the temples aren't adjustable due to the technology inside).
- The sunglass lenses are polarised, and the frame can be glazed with prescription lenses.
- The frame is water resistant IP64.

Smart Voice Assistant Features

- **BLUETOOTH:** Astro connects to your phone via Bluetooth (look for E13V in your bluetooth settings). This is visible when the frame is open with charge.
- **SMART CONNECT:** Astro turns on by simply wearing the frame or opening the arms. It turns off with arms closed.
- **SENSORS:** The red lines on the arms are used to activate the below features.
- **MUSIC:** You can play any audio you wish via your phone. Tap the sensors once to pause/play music, or tap twice on the right sensor to skip the song (twice on the left to go back).
- **RECEIVE CALLS:** Tap the sensor once to receive the call (tap once to end the call). Hold the sensor for two seconds to reject the call.
- **VOICE ASSISTANT:** hold down the sensor for two seconds to activate your phone's assistant (Siri etc.)
